Experience

| | |
|---|---|
| Infokit Pvt Limited Full Stack Developer Intern <ul style="list-style-type: none">Led the front-end development of a cutting-edge language consultancy application for digital exams using React, JavaScript, HTML, CSS, Tailwind CSS.Played a significant role in building the back-end system by creating 50% of the project's APIs using Node.js, Express.js, and MySQL, ensuring seamless communication between the front-end, back-end and the database.Integrated secure payment processing through eSewa payment gateway and streamlined user authentication with Google OAuth, enhancing user experience and application security. | Butwal, Nepal April 2023 - June 2023 |
| Lancemeup Pvt Limited React Developer Intern <ul style="list-style-type: none">Played a key role in the development of lancemeup.com, a SASS product using Typescript, React, NextJS, SCSS. Specifically, I took sole responsibility for developing the user tracking module, implementing robust tracking mechanisms to monitor user behavior and enhance product analytics.Assisted in maintaining various modules within the Sass product, including the drive and workspace modules. Collaborating closely with the team, I actively addressed bugs, implemented new features, and optimized performance to ensure seamless functionality and enhanced usability.Successfully delivered a complete government project related to traveling. Leveraging my React expertise, I developed intuitive and user-friendly interfaces, meeting all specified requirements within the given time frame. | Lalitpur, Nepal Oct 2022 – Feb 2023 |

Projects

| | |
|---|--|
| Mero Byapar | https://mero-byapar.vercel.app |
| <ul style="list-style-type: none">A React-based project using Next.js 13, TypeScript, and Zod, designed to efficiently manage product, order, and sales records for small businessesCreated a user-friendly interface allowing businesses to easily track products, categories, and sales performance, providing valuable insights into revenue analysis and sales trends.Implemented a comprehensive order management system, enabling businesses to create and manage customer orders seamlessly. <p>Tech Stack: Next13 app directory, TypeScript, Zod, React Query, TailwindCSS, CVA Github: https://github.com/suzan-rana/mero-byapar</p> | |

Vibe: A Blogging App

<https://v-suzan-rana.vercel.app>

- A blogging web application made using the tRPC Next.js 13, T3 stack, providing users with the ability to create and read blog posts, as well as login, signup, and leave comments on blogs.
- Implemented a user-friendly interface that allows seamless creation and publication of blog posts, enhancing the user experience and facilitating content generation.
- Implemented comment functionality, allowing users to engage in discussions by leaving comments on blog posts, fostering a dynamic and interactive community within the app.

Tech Stack: (t3) => TypeScript, tRPC, TailwindCSS, NextJS, CVA

Github: <https://github.com/suzan-rana/Write-Your-Vibes>

Task-Manager

<https://task-manager-4zbi.vercel.app/>

- A Project management application inspired by Jira boards, allowing users to create, edit, and delete tasks, as well as track their progress by utilizing drag-and-drop functionality.
- Implemented a user-friendly interface that enables users to easily manage their tasks by organizing them into different boards, providing a visual representation of task statuses and progress..
- Utilized drag-and-drop functionality to enhance the user experience, allowing tasks to be easily moved between different boards or statuses, improving task management efficiency.

Tech Stack: TypeScript, NextJS, React-beautiful-dnd, TailwindCSS, CVA

Github: <https://github.com/suzan-rana/task-manager>

Skills

Technical: Typescript, Zod, React, NextJS, TailwindCSS, tRPC, CSS, Prisma, ExpressJS, NestJS, MySQL, PostgreSQL,

HTML, JavaScript, Git, Github, BitBucket, Jira

Non-technical : Leadership, Communication, Problem Solving, Teamwork, Time Management, Adaptability, Attention to Detail
